STAT

As your career with the Central Intelligence Agency comes to a close, we in FBIS wish to express our appreciation for your contribution toward the accomplishment of our mission and to express our best wishes for the future.

The foreign language skills and knowledge of biomedical sciences which you brought to bear in your job earned you recognition in FBIS and the rest of the Intelligence Community. The commendations and letters of appreciation received from consumers speak well for the contribution you made in your 31 years of service.

On behalf of everyone in FBIS, I wish you good health and much success in the years ahead.

Sincerely,

STAT

Director
